

April 12, 1953

Mr. J. W. Brauner
23 Howard Ave.
Williamsville 21, New York

Dear Mr. Brauner:

This is in reply to your letter dated April 2, sorry we have not answered it sooner. Yes that was K I H N you received on April 2, 1953. We were conducting our monthly frequency check with Kansas City. Our Frequency at that time was 1340.002 Kc. The station I D was at 1:15, 1:20, 1:25, 1:30 A.M. We have our freq. check once a month on the first Thursday.

And as for other reports on this freq. check, we received several there was one from Lincoln, Neb, one from Chicago, Ill. one from Toronto, Canada, also one from Staten Island, New York.

Just where is Williamsville? I have a sister in Sprakers, N.Y. That is about Fifty miles west of Albany, and I use to go with a young lady from Jamestown.

I am taking the liberty of answering your letter, since it is Sunday and the chief Engineer is off today, oh yes his name is Dalton Jones. Robert Wainwright run the test.

Oh by the way our carrier was modulated with a 1000 cycle tone.

Hope you get good reception on the next check, we have Gates Gear 250 watts. Our next test will be on May 7 from 1:15 to 1:30 A.M.

Engineer on duty

Edsell Griffin
