Regional Coverage :-: Local Station Rates

DURANT, OKLAHOMA

December 14, 1951

Dear Mr. Brauner:

Sorry that DX conditions were not as good as they might have been, but I'm glad that you were able to read me a little anyway. The response from your club has been very heartening, as I have received about fifty reports so far. My signal seemed to be very good in nearly all of the northern and eastern states, with the exception of a couple of towns in Pennsylvania. I noticed that Williamsville is not far from Buffalo, and Mr. Edge, your club president, turned in a fine report for my station, despite terrific QRM.

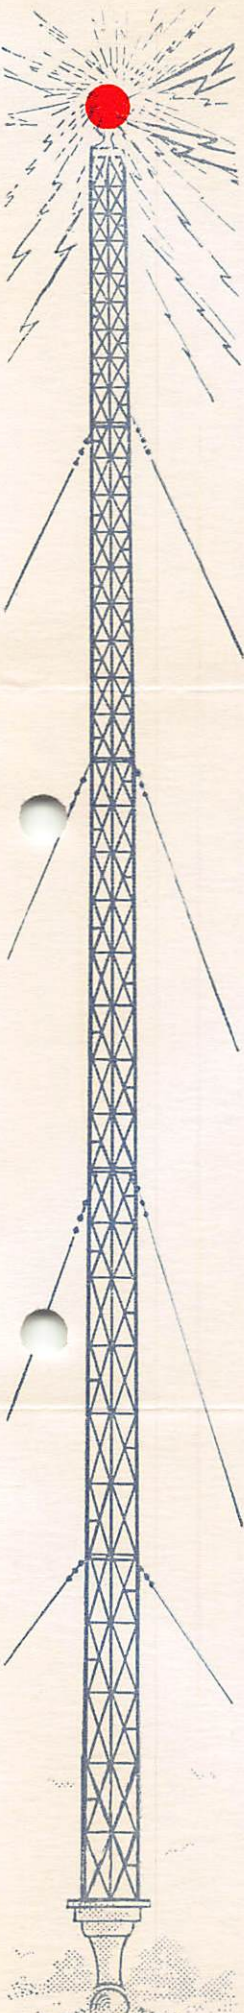

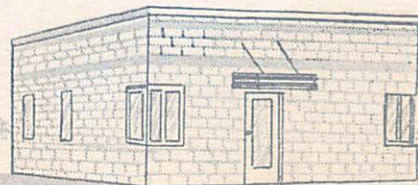

I would like to make this letter longer, but my wife and I are burning the midnight oil now to answer all the mail. We are really enjoying it, and as soon as we have gone through it, we will start over and give you a more detailed answer to our program results.

A very Merry Xmas and Happy New Year to you and yours.  
We remain,

Sincerely,

*Curtis L. Parish*
