76% of Homes in Oregon and Washington Have Radios. According to the Latest Report of McGraw-Hill Publishing Co.

Regular Trade Area 40,000 Population. During Tourist Season the Population Increases to 65,000.

Mr. J. W. Brauner  
17 E. Spring Street  
Williamsville, New York

Dear Sir:

This is in acknowledgment of your report on our frequency check of September 8.

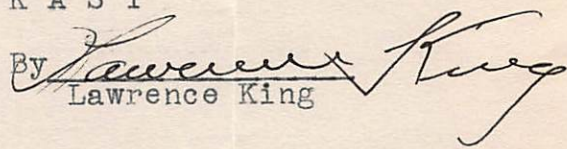

We wish to thank you for the complete report on the check. We are certainly grateful for the report on receiver and weather conditions, as well as the quality of our signal and modulation.

The set up here is the same as last spring, so undoubtedly the difference in signal strength and audibility is due to the seasonal change of atmospheric conditions.

We would greatly appreciate your report on future frequency checks. They are held from 2:10 to 2:30 a.m. P.S.T., on the second Tuesday of each month.

Sincerely yours,

K A S T
