Mr. J. W. Brauner,  
17 E. Spring Street,  
Williamsville, New York.

Dear Sir:

Your valuable letter reporting our special test of November 19th, 1932, is verified by our log. Your statement regarding our special test of January 13th, 1932, makes it very interesting. Your extra fine series of comments upon the signal strength at certain times is of special value. We were adding inductance to our antenna circuit and our meter checks are verified in all details with your statements.

Regarding the greatest distance under this test, we have several from New York City, Brooklyn, and one from Maine. For complete description and value of check, however, you win the honor, and may we congratulate you upon your interest?

KBPS is strictly non-commercial, sells no time, and operates only for public benefit. The school is part of the Public School System of the city of Portland, while the set is owned and operated by the student body of this school. There is no paid personal, and the operators are students holding the required licenses, but receiving training in station operation.

Very truly yours,

W. D. Allingham,  
Manager, KBPS.

WDA/DH

P.S. New supply of stamps being printed. Yours will be mailed soon.
