Williamsville, N.Y.

Dear Sir.

Thanks for the very fine report. It always does our heart good to hear from the DXers in the east. The power used was 100 W. Your report was entirely correct. It might interest you to know that your report is the 35th since we went on the air.

Our next check will be April 11, 1939. Would like to have you listen. Drop us a line if you hear a preep.
