ELIZABETHTOWN, PA.

August 5, 1958

Dear Mr. Brauner:

Thank you very much for the nice letter of July 26. It contained information of great importance to us.

Our output is 500 watts, with a directional antenna, made up with two 150' towers. Our pattern is N.W. - S.E.

Thanks again for your report.

Sincerely

W. J. Lase
chief engineer
