J. W. Brauner
23 Howard Ave.
Williamsville 21, New York

Dear Mr. Brauner:

Thank you for your most interesting letter concerning the observations of WFRM at your location.

Before this station was installed, it was not thought the signal would give such an excellent coverage at it is apparently doing; therefore your report is indeed welcomed.

At present, we are using the frequency check services of Pennsylvania State College and they are doing this during our regular broadcast schedule; thus, we have no scheduled operation after midnight.

Yes, your notations check with our log, having been on duty at the transmitter at the time, I remember them.

We hope our signal continues to reach you and you enjoy our programs.

Yours truly,

Maurice E. Sherman, Jr.
