Mr. J. W. Brauner,
23 Howard Ave.,
Williamsville 21, N. Y.

Dear Mr. Brauner:

I am pleased to verify your reception of our sign-on the morning of Sept. 12th as being correct.

Our plant is RCA equipped and the transmitter is located in rugged country where jeep transportation is necessary. Night time operation is directional with the major lobe 352 degrees true.

Shamokin is a busy anthracite community with plenty of civic pride and the station has been well received. In other words, we are doing nicely.

Thanks for your fine report and your interest in our operation.

Very truly yours,

B. T. Marshall
Chief Engineer.
