Mr. J. W. Brauner,
Williamsville,
N. Y.

Dear Mr. Blauner,

Thank you for your report on the reception of our test transmission. I know that WWDC gives us quite a bit of trouble on this frequency and am glad to hear that we were getting the best of them at that time at least.

OK on your interest in small railroads and it may interest you to know that the main line? of the Bellefonte Central passes within a couple of hundred yards of the transmitter house of WMAJ. One combination train a day.

Again thanking you and hoping that you may eventually log every Broadcast Station in the country and ride every small railroad, I remain,

Sincerely yours

Henry B. Kearney, Jr.
Henry B. Kearney, Jr.,
Chief Engineer.
