ROTORUA. NEW ZEALAND.

17th March, 1954.

Mr J.W. Brauner,
23 Howard Avenue,
Williamsville 21,
New York,
UNITED STATES OF AMERICA.

Dear Mr Brauner,

Thank you for your report of reception of IYZ on February 1st. We are happy to confirm your report.

The programme you heard between 8.30 and 9.00.p.m. (N.Z. time) was a play entitled "The Wooing of Aunt Jenepher". This was followed by the nightly Dominion Weather Forecast at 9.p.m, thence the reading of "Overseas and N.Z. News". At 9.15.p.m. your programme was a talk - "Rehabilitation in Retrospect". At 9.32 the Announcer gave the sign - "Station IYZ" and thence followed another play "The Devil's Holiday".

We have received a considerable number of reports from all over the United States since we opened in April 1949. It has been our experience that reports, especially from the Atlantic Coast, have been received mainly between November and February each year. The majority are received during January. Apparently reception during our summer months, which we presume will be your winter months, is better than at other times of the year. IYZ is a Station of 10,000 watts, operating on 800 Kcs. The Transmitter is on the Pacific Coast 35 miles from the Studios, which are in Rotorua, a Tourist Centre of the Dominion. We are received at good programme level throughout most of the Pacific Islands. We are very pleased to receive reports from listeners as far away as you are, and we trust that you will send us further reports from time to time.

Our Verification Card is being forwarded per surface mail. The staff extend to you their best wishes,

Yours sincerely,
