J. W. Brauner Esq.,
17 East Spring Street,
Williamsville, New York,
U. S. A.

Dear Mr. Brauner,

We were very pleased indeed to receive your letter dated 1st October, 1932, regarding signals which you heard on your 10 tube receiver, and which you felt quite sure emanated from this station.

Personally we feel that 4TO is the station you heard, for only a few days ago we received another letter from a listener in New York state, and this letter coming so soon after your own letter, confirms us in the opinion that this small station of 200 watts aerial current, can really be received in far away Williamsville; but we very much regret that at the moment we should not be justified in forwarding you our Q.S.L. Card in view of the fact that you gave us no item whereby we can check up.

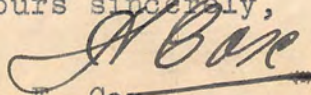

The type of programme being put over the air by this station is very similar to the type of programme being put over by other stations in Australia of the same class.

We should greatly appreciate if you would be kind enough to listen in again, and forward us if only one item, so that we may check with our Log.

Thank you for the 5 cent piece. We look upon it as quite a curio.

With best wishes, and hoping to hear from you again at some future date.

Yours sincerely,

H. E. Cox,
Broadcasting Department.

TOWNSVILLE

The Gateway of Tropic
Queensland

The thriving and beautiful city of Towns-
ville with a population of over 32,000
people, is the second largest city in Queens-
land. It has a fine harbour and is the seventh
shipping port in the Commonwealth and
the centre of the Northern Railway System
of Queensland. The prosperity of Towns-
ville and districts is based on its big export
trade in merino wool, frozen and pre-
served meats, sugar, timber and minerals.

POST CARD

CORRESPONDENCE

Dear Mr. Brauner,

Thanks your letter dated 16th March, 1933, reporting having heard this station. Even now you do not send me any clear indication of items broadcast, but I have checked through my log very carefully for this date, and I feel sure "4TO" was the station heard, and I now have much pleasure in sending you one of our Q.S.L. cards.

With best wishes,

H. C. Orr
