Dear Mr. Brauner,

Your letter stating reception of our station on the 26 and 27th of this month reached me today and I am more than happy to confirm same. I am the early morning announcer-engr. and your description of my "sign on" and news-cast that followed coincided perfectly with with ours. We sign on at 5:53 A. follow with 5 minutes of news and at 6 continue with "Henhouse Hoedown" which is a hill billy show. But possibly the hill-billy introduction you mentioned came from another station as I can not remember having said that we were destined to hear hill-billy.

Am pleased to hear that our signal reached you and that the quality was as you stated. We're using all "Gates" equipment (1000 W. of course) and we have a ground system of 100 feet, #0000 wire with 180 radials.

Thanks for the interest,

Zed L. White
