Dear Mr. Brauner:

I am pleased to verify your reception report of WLSC, Loris, S.C. on July 20th. WLSC was running an equipment test on that date prior to broadcast date of Aug. 2. Our regular frequency check date is the fourth Tues. am. in every month at 2:15.

Am sorry I've delayed in this verification but I've a good excuse.....Been snowed under with work since I am the only man with a first class ticket at the station, also manager of the station, write copy and pull any outside remotes. I'm not bragging....I'm complaining!!!!

Merry Christmas !!!!

Sincerely,

Arthur D. Nix
