Dear Sir:

Sincerely wish to thank you for your report of this station of the 19th. This is indeed fine for this power and frequency with all the interruptions from other stations assigned to 1500.

You may feel sure that your report pleases us no end, since we are so new to the air, WMRC being a new station.

Should you ever hear from us again, please let us know, since we should sincerely like to hear from you.

Very truly yours,

Chief Engineer
