Mr J. W. Brauner  
23 Howard Avenue  
Williamsville 21, New York

Howdy,

My letters of confirmation are growing shorter, with each one, so far we have had 54 to confirm and of them, about 5 or 6 are not DX'ers. One or two ask for NO confirmation, they have K D S J checked off, two from Canada regretting they could get no signal. One card from Prophetsville, Illinois, said "My daddy runs a D-X oil station, and I'm staying up to help him.2 We got quite a kick out of the DX'ers getting oiled.

Your log was certainly complete enough, from the information you have given me, to confirm our signal. Therefore, you can now check another off (for five points ?). Have had signals to Jacksonville, Florida; Vallejo, California, and many Eastern and Middle West. I'll send the complete list (DX'ers and others who wrote) to the NRC. Thanks for writing.

You'll enjoy the Black Hills for a vacation, next time.

Thanks again,
