Mr. J.W. Brauner
17 E. Spring Street
Williamsville, New York.

Dear Mr. Brauner:

Thank you for your letter of the 25th. I am sorry to say however, that no further equipment tests are contemplated at the present time on our new transmitter. It has already been placed in active service and unless something unforeseen occurs we will not make any additional after midnight tests. Due to the proximity of this station to Grand Island Monitoring Station we are not required by the FCC to make monthly tests as this signal is capable of being received during normal operating schedules at Grand Island.

Thanks for your well wishes and should there be any change in testing schedules for this station I will be pleased to contact you and receive your reports.

Sincerely,

The Black Hills Broadcast Company
