Williamsville 21, New York,

Well here is your verification to your reception report of Dec. 22 1947. This is sort of late and I guess you had decided we were not going to send it. We had a small flood here which forced us to move our transmitter and other equipment and in the confusion such things were left for awhile. Things are back to normal now, and I'm trying to get out answers to all reports I have.

Thanks for the nice report and I hope this will be ok even tho its 3 months late

Good Oxing
