Mr. J. W. Braunor
23 Howard Avenue
Williamsville 21, New York

Dear Mr. Brauner:

Your report on the reception of our station was received today. It gives us great pleasure to hear we have been received in Williamsville.

This is a new station owned and operated by Mayor George Smith. We are using Collins Equipment. Our 250 Watt Transmitter is Collins 300G.

The Transmitter uses Parallel 810 power Amplifiers, modulated with Push-Pull 810's. We are using a 365' Stainless Tower which is approximately .55 Wavelength.

We are sure our good reports are due to this type of Antenna. We have good D. X. reports from the following:

Hubert Montulet
Box 216
Elberon, New Jersey

Joseph J. Becker, Sr.
415 South 11th Street
Hamilton, Ohio

Len Kruse
817 Wilson Avenue
Dubuque, Iowa

Eldon E. Addy
Box 158
Marcus, Iowa

William J. Prater
Grimsley, Tennessee

Mr. Braunor, your report is greatly appreciated and if we can be of any assistance to you in the future please let us hear from you.

When you are in Jackson we will be more than pleased to have you stop by and pay us a visit.

Yours very truly

Radio Station WPLI

Johnnie L. Prewitt,
Chief Engineer
