Hi OM:

Thanks for the nice QSL, glad to hear that we are at least getting a small signal into New York even through XEG hi.. Yours is the farrest away so far, dont suppose we will be hearing from many for how can one thousand buck one hundred and fifty thousand hi....

The equipment here is a Collins 20-V-1, 1000 watts (will be day time operation only) Antenna is a Stainless 229'overall Vertical guyed non directional. Location is middle Tennessee, between Nashville and Knoxville.

Personel other then the above names on the letter head is Jim Eastman Program director and announcer. Bill Rounds announcer. Van Slack Salesman. Mrs Gladys England. secatary and myself as chief engineer (coffee maker, Janitor- and handy man) I.D. Byars W4KKO ex KA2AG ex N6RBT ex CN8ET.

We are applying for our license today and hope to be programming by the last of next week.

Tnks agn fer the QSL es if u hear us on agn during the test period will be glad to hear from u.

73's es cul
