Buffalo 21, N. Y.

Dear Mr. Brauner:

Sorry I'm late answering your letter regarding our dx program on Jan. 10, 2:30-3:00 am est. So far have answered about 30 reports. We seemed to have done much better in the west. Got two reports from New Zealand and two from Canada. QRM on the east coast gave us a hard time though. All reports from New York were poor. 1450 is a bad spot any time of the day I've learned. We may have another program at a later date. Hope we can do better than. Thanks for trying. Best dx. 73.

Sincerely,

Joe F. Morgan
