

GRAYSON BROADCASTING CORPORATION

"Radio Voice of Texoma-Land"

1220 KILOCYCLES

DENISON, TEXAS

Sept. 21, 1948

Dear Radio Friend,

Yes your report was correct to the utmost concerning our initial broadcast on Sept. 18, 1948 at 2:00 A.M. That was our first night of broadcasting during equipment testing.

Another report comes to us from that section of the country. Albert J. Bartholomew of 23 River St., Corning, New York received our signal; however, with less intensity than yours. He was using a 1937 Hakucrafters Super Sky-rider and reports fading considerably with high static level.

We envy you and your hobby Mr. Brauner, and wishing you and yours a continued success in your hobby. Thanks a million for your report.

Sincerely,
Fred Weaver
Chief Engineer

Fred Weaver
