This will confirm your reception of KELP the morning of Oct, 5, 1947. we were on the air with a special frequency check transmission. we will be on nightly for a while and then use only weekly checks. Time not yet set.

Thanks for your nice report and may you add many new stations to your list before long. KEP O 690 kc from this city will be on before long and if I can find out the time will give it over the air doing our check.

Transmitter here is Raytheon 1000 watts into a 250 ft. tower and located in the old river bed. Reports have been very nice and show that we sure get out.

Yours Very Truly,

Jesse M. Neil, Jr.
