Dear Sir:-

This will verify your reception of Radio KFYO at the time and date mentioned in the card you sent us, and we wish to thank you very much for your report.

The program you heard was a short test put on after a few alterations had been made in our output amplifier preparatory to using higher power for daylight transmission. We were using about two hundred fifty watts at the time of the test. The selections broadcast were from records on the studio pick-up.

Our regular evening schedule is from eight to ten PM Central Standard Time, and we would greatly appreciate any further reports of reception, should you hear us at any future time.

Yours very truly
