Mr. J. W. Brauner,
17 East Spring Street,
Williamsville,
N. Y.

Dear Mr. Brauner:

Pardon our delay in answering your nice letter of December 18th., but the holiday rush has been upon us, and these small staffed radio stations have to all pitch in and play ball while the playing is good.

We would like to put on at least one DX program during the next two months, that is in January or February. Then later on in the spring, April or May, we would like to put on another one just to see how much the difference in response will be.

We had a wonderful response to this little test program. We let a few DXers in on the fact that we were going to be on the air at that time, among them Lt. Hahn, and he had the Newark News print it.

Thanks a lot for the kind words in re our signal strength, quality, etc. We are passing your letter on to our engineer. As he built our transmitter he appreciates it very much when some one throws boquets his way.

What ever arrangements you may make for us on the DX program date and time will meet with our approval we feel sure.

By the way, the writer was at the mike the other morning. Glad that you were able to distinguish my mumbletone from the other ether disturbances.

Best regards, and many a whole hearted wish for you happiness and success the coming New Year.

Sincerely,
K G K L, Inc.

Charles Yates
