Dear Sir:

We are indeed glad to acknowledge the letter from you pertaining to our test program on Sunday morning, February 8, 1937.

All DX letters from Md. and N.Y. report that WJBK over-rides our carrier most of the time, with but snatches of KPLT coming in good. However, our power here is the same as that of the Detroit station.....100 watts.

We checked with the log kept in the studio, and find that we did not play "Close Your Eyes and Dream of Me", although your list does check approximately with ours.

If you hear us again, please drop us a line, and let us know if conditions are any better there.

Our next test broadcast will be approximately February 16, 1937, at 1:00am. This date and time is not definite, but only approximate.

73

W5EJS

Sincerely,  
  
DX Dept.
