Mr. J. W. Brauner

17 Spring St.

Williamsville 21 N.Y.

Dear Mr. Brauner:

In reply to your letter of July 9, 1945 I am very pleased to hear of our report. It was quiet a suprise for us to be heard there as for some reason or other the Commerical radio equipment Company in Kansas City, Mo. failed to hear our report. We have a Gates American Corp. transmitter, made in 1937. Our antenna is a 438' vertical job which is quiet a deal for a 250 watt station.

The ~~mt~~ announcer youx heard was new and that was his first frequency check, I was on at the transmitter.

Thanks again for your letter, if you are an amateur maybe we will hook up some time, my call is W5HPR.

Very truly yours,

*Jack Cecil*
