Dear Mr. Brauner,

We thank you very much for your letter and are very sorry that have received no acknowledgment of your previous communication. We have since changed chief engineers and perhaps that will tend to minimize the possibility of it happening again.

It always is interesting to hear from someone out of our signal area who picks up our skip signal and so we thank you for bringing it to our attention. Since that date ( April 1952 ) we have been signing off one hour earlier and consequently that may be the reason you haven't been getting our late signal up there. We are contemplating going out until one o'clock so look for us again.

From your remarks we are certain that it was our sign off you picked up. Thank you again for your interest.

Sincerely,

  
Ed Sullivan ( C E )
