Dear Sir;

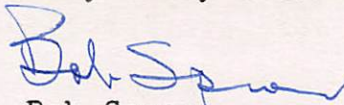

Thanks for your fine letter of Dec. 12, 1949. That must have been our signal you were getting for I received another letter on that test from your general area.

Sorry I can't change the test period and also about the delay in answering your letter. We get lots of DX letters and now and then I miss one.

Glad to hear about the McMurdo*Silver Masterpiece #5. That was, and I imagine still is, a mighty good radio.

Thanks again and good luck.

Very Truly Yours

Bob Spear

Chief Engineer
