Dear Mr. Brauner:

Speaking for the staff and Management of KVOZ I wish to express our deepest appreciation for your attempt to log KVOZ during the special National Radio Club program. Although you were unable to read us, it was certainly an almost impossibility with a local in the neighborhood. To this we can add the fact that it was not the best of mornings for DX'ing.

For your interest KVOZ is contemplating moving to 1240 kcs. in the near future. This should enable us to hear from you quite often.

Once again the best of luck to yourself as well as to all the members of the National Radio Club.

Sincerely,

Francis A. Manuel
