Dear Sir:

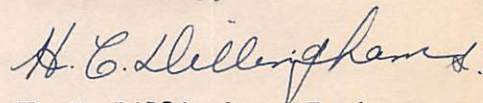

WTAW is pleased to verify your reception at
4:24 A. M. CST March 5, 1933.

We have received numerous replies to our
program of March 5 for the N. N. R. C. It was with
a great deal of pleasure that we broadcast this DX
program.

The program started a few minutes late.
One of our operators became confused as to the time
and the one operator on duty had to "fire up" the
transmitter and then go to the studio and get the
program ready. He was very busy during the program
you may be sure.

We are rewiring our modulating equipment and
hope to have greater average modulation when the changes
are finished.

Yours truly,

H. C. Dillingham, Engineer,
Radio Station WTAW.
