RADIO KEYY INC.

PROVO, UTAH

"The Popular Station"

May 26, 1953

Dear Mr. Brauner

In browsing through our old files I came across your wonderful letter dated Feb. 15, 53 which had been neglected by our previous Engineer. Your letter was of exceptional value due to the fact of your complete information. I found your letter especially interesting because it was myself who made with all the chatter that you spoke of. Though there has been a definite delay we are happy to inform you that your reception of Radio Station KEYY Provo, Utah - 1450 Kcs. power 250 watts on ~~February 15, 53~~ Feb. 15, 53 at 2:18 to 3:01 MST was correct. At the time of your reception we operated on a hand made rig which had been on the air for the past 12 years, previously KQVO's transmitter. We are making a complete change to new Gates equipment on June 1. At this time we will begin broadcasting 24 hours per day except Sunday.

Sincerely hoping to hear from you again.

Respectfully yours

Ron Bailie  
Chief Engineer

Your dial is set for music on KEYY
