Mr. J. W. Brauner
17 Spring Street
Williamsville 21
New York

Dear Mr. Brauner:

Here's a very hearty thanks for your very excellent letter of report of Feb. 19. I am pleased to hear that you picked up our signal this time and that you could send us such a fine report.

I don't know why our signal was so favored unless it was because I spent about 3 hours one night balancing up the 805 finals and modulators--hi. Atmospheric conditions also were good for DX that night because I received two other reports from New York, two from Iowa, one from Connecticut, and one from Pennsylvania. Also one from Chicago. However, your's was the best, most complete and most interesting. I might say that most of the reports were from members of the National Radio Club. I would like to dedicate one of these test broadcasts to the Club as soon as it can be arranged.

Again, Mr. Brauner, I thank you for the fine report and the compliments also. I hope we hear from you again. Here's wishing you continued success in your DXing.

Sincerely yours

Parley Rasmussen
C. E., KOVO
