

FREDERICKSBURG, VIRGINIA

2/22/44

Mr. J.W. Brauner,  
Williamsville, N.Y.

Dear Sir: Thank you for your report of reception of this station during the special transmission from 4 to 5 A.M. E.W.T. on Feb. 18.

This letter will serve to verify your reception of WFVA.

Thank you also for your constructive criticism of the musical portion of the program which you stated was rough at times. To date, yours has been the only report of this nature, the majority saying that quality on both voice and music was fine. However, we have seemed to notice a slight roughness at times in the station monitor due probably to pickup chatter.

Thanks again.

Sincerely,

Phil Whitney,  
Chief Engineer,  
WINC, WFVA
