South Boston, Virginia

Mr. J. W. Brauner
23 Howard Avenue
Williamsville 21, New York

Dear Sir:

Station W H L F is pleased to receive your nice report on the reception of our signals during Equipment Test programs during the past few days. It is a pleasure to verify your reports of reception, and we appreciate very much the helpful information included.

The response from DX-ers has been extremely gratifying. We would like to answer each card or letter personally, but the large number of reports so far received makes this impossible. This acknowledgment and note of thanks, though duplicated, is nevertheless sincere.

We appreciate reports like the one you sent us, and we regret that we cannot answer each letter that we received in more detail. However, please accept our sincere thanks.

Sincerely,

William D. Gregory
