

KFPY

SPOKANE'S
PIONEER STATION

**SYMONS
BROADCASTING
COMPANY**

SYMONS BUILDING
SPOKANE

February 14, 1936.

Dear Mr. Brauner,

Your letter reporting reception of KFPY on the evening of February 8, 1936, is one of the finest reports I have ever seen; your quotations of announcements are excellent proof of reception. Our job of making out verification cards would be extremely simple if every report were as complete as yours.

The transmitter, whose performance you praise, is a Western Electric 6-B with slight modifications in the modulation system. Lack of carrier noise, fidelity, and low distortion on modulation peaks is due to the use of the latest transmitter checking equipment manufactured by General Radio.

The Mountaineers are presented over this station every Saturday night from 11:00 to 11:30 PM PST.

Sincerely,

R. B. Sutton
