Mr. J. W. Brauner,  
17 Spring St.,  
Williamsville, N.Y.

Dear Sir:

In reply to your recent correspondence, we wish to verify the fact that you undoubtedly were listening to our station on the morning of July 4th in a program which was primarily designed to test the effectiveness of our new transmitting equipment.

We shall be on the air from time to time throughout the summer and fall with more test programs and should you have occasion to listen to us again we shall be pleased to hear from you.

Very truly yours,
