Dear Sir - I am glad to verify your report on reception of this station time 21:00 - 21:25 CST July 21

The number you identified was a concert arrangement of the popular "Blue bird of Happiness" solo by Paul Robinson.

We were conducting frequency checks by Phelps Lab. in Minneapolis. They also reported much static and interference.

Our studios and tower is in Eau Claire. We use a BTA RCA 250L transmitter coax fed 183' series antenna.

I remember seeing your report 7/21/48. It was good but I must have failed to get the reply in the mail.

Sincerely Yours

Claude Thomas C.E., WBIZ
