

September 24, 1951

J. W. Brauner  
23 Howard Avenue  
Williamsville, New York

Dear Mr. Brauner;

I have been going through my files here and have found several reception reports that up to the present time have gone unanswered. Your report of our "Equipment Test" of October 26, 1950 was among them.

Your log of tunes, times and announcements is true and correct with the log of this station.

Very truly yours,

Paul J. Ripple (W9SIZ)  
Chief Engineer
