Dear Mr. Brauner:

I have your letter of the 27th and thank you for same. I am also happy to be able to verify your reception of us. We were on at the time you report, for a frequency check. As a new station we did not have our frequency monitor. We are accordingly required to check once weekly with some commercial private firm and supply the result of this check to the FCC. You heard us on our Thursday, Nov 27th transmission. On these transmissions we normally play the same number over and over and cut the carrier about every fourth minute for about a minute. This all aids in identification at the check point.

Very truly,

Nathan Williams
Chief Engineer
