

WLKE

Lucky 1170

February 24, 1977

J.W. Brauner
R.D. 1, Box 86
Punxsutawney, PA 15767

Dear J.W.,

This letter will confirm your reception of WLKE on Sunday, February 20th, 1977 at 4:30 PM. Quite a trick, to pull us out of all the rest at your distance!

WLKE is a 1000-watt non-directional daytimer on 1170 KHz. Our format is "New Country" music, with all news and sports produced in the station.

We employ the latest audio processing techniques like the Durrough processor and Modulimiter to get 125% modulation, which is probably responsible for our punching thru to you!

Our FM side is WGGQ-FM, a 3000-watt (H & V) 24-hour automated rocker with a six-bay RCA antenna at the top of a 300-foot stick. Stereo, of course! Now, if you ever pull in "99-Q" (99.3 MHz) at your distance, we may hire you as an engineer!

Thanks for your report, J.W. Drop us a line if you hear 'LKE again and be sure to stop in if you're ever near Waupun. We're about an hour northwest of Milwaukee.

Sincerely,

Mike Moran
WLKE-WGGQ Engineering Dept.
