J. W. Brauner
23 Howard Ave.
Williamsville 21,
New York

Mr. Brauner

I am sorry that did not answer sooner but have been busy here for some time. Have been working hard to get our 5000 Watt transmitter on the air at Wausau and than help get the building cleaned up. We are on the air now from WOSA Wausau since June 25, 1953. We are getting frequency checks out of Minneapolis Minn. during our programming day so we will not have any frequency checks after midnight. Our sign off usually is about 12:08 A.M Central standard time.

This confirms that your report of our reception of May 28th 1953 is correct. Thank you.

Sincerely yours,
Werner H. Weiss
