

1340 on Your Dial

FAYETTE ASSOCIATES, INC., OPERATING

AFFILIATE OF MUTUAL BROADCASTING SYSTEM

RADIO STATION

**WMON**

MONTGOMERY

WEST VIRGINIA

December 9, 1947.

Mr. J. W. Brauner,  
23 Howard Avenue,  
Williamsville 21, N.Y.

Dear Sir:

This will acknowledge your letter of November 17th, reporting your reception of WMON on that date during our regular monthly frequency test transmission.

Your report is very complete and agrees with our log covering this test transmission, therefore we are pleased to verify your reception.

We are just another 250 watt station, nothing especially out of the ordinary. Our transmitter is a Collins 390-G, quarter wave Windcharger tower, Raytheon speech equipment, with General Radio frequency and modulation monitoring equipment. Our location is down in the valley here, and we seem to get out very well considering the location and the frequency.

The delay in answering your report has been due to the fact that the writer misplaced it and just found it yesterday.

Your interest is appreciated.

Yours very truly,

*J. C. Craver*

J.C. Craver,  
Chief Engineer.
