CASPER, WYOMING
December 2, 1933

D. L. HATHAWAY,
OWNER-MANAGER

*Wyoming's Only
Radio Station*

*Location—
Geographic
Center of State
and Trade Area*

Mr. J. W. Brauner
17 E Spring St
Williamsville, N.Y.

*Full Time
Operation*

Dear Sir:

*Exclusive
Service to
Central
Wyoming*

Thanks for your report on the program from this station the morning of November 24th 1933 between 1:15 and 1:45 AM MST. It is a pleasure to verify such a comprehensive report and again thanks.

No doubt, you, like all the others want to know when we are testing or Dxing so you can notify the members of the club. As a matter of fact there are no test or late programs scheduled at the moment. Our manager here doesnt care to put on late programs for the simple reason that he feels that we are a local station and do practically all of our business locally and feels that the late programs are an added expense without reason. It really does throw things out of balance for we only have the operators to run our regular schedule but personally I get a big kick from them. If there are any late programs scheduled later I will be glad to notify you of them. However I think the only late programs there will be this winter will be our frequency test programs such as you happened to run across the other night. They are not regular so I cannot giv you aschedule on them.

Yours for better and more distant Dxing.

Sincerely

Mark R Nichols
