Dear Mr. Karchevski:-

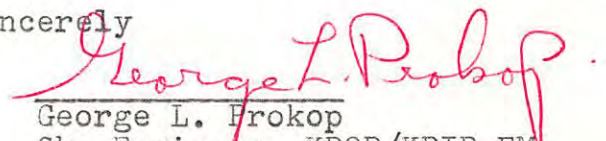

Please forgive the delay in responding to your report received here on September 27. I have been on an unwanted "vacation" in the Hospital and have just returned today.

I have checked your report with our operating log on September 25, 1971 and hereby confirm that you did, indeed, hear KPOP in the time period described.

We are indeed gratified that our 500 watts could be heard at your location, as you can see from the pattern enclosed..Daly City is completely out of our calculated range.

My personal thanks for your report, it was appreciated.

Very Sincerely

George L. Prokop
