20 . 2 . 70 .

Dear Mr Katchevski,

Thank you very much for your letter of 2<sup>nd</sup> February and your reception reports of our MW transmitter on 844 KHz for the period 28<sup>th</sup> to 30<sup>th</sup> of January 1970. We indeed verify that these reports are correct. Yes, this station is VSZ1. The new 10KW Marconi transmitter took over from the old 50 watt. on the 9<sup>th</sup> of January and as you say from that time we have had many reports in from Western United States, New Zealand and other Pacific Islands.

Thanking you for your interest.

Yours sincerely.

Alan Roberts
