

Christ died for us! Romans 5:8

But God demonstrates His love towards us, in that while we were yet sinners,

A step forward at Radio 4VEH is the installation of a 270 ft. steel tower which replaces two 180 ft. towers. This antenna will radiate the two signals of 830 KHZ and 1035 KHZ. This requires special tuning network and critical tuning adjustment to isolate the two transmitters which are only 205 KHZ apart. The transmitters are located at the edge of a bay just East of the city of Cap Haitien. The dense salt atmosphere works havoc with steel towers but this is offset by the added ground conductivity of such a location.

4VEH is owned and operated by The Oriental Missionary Society, with International headquarters located in Greenwood, Indiana, 46142, U.S.A. (Box A). Haiti is one of twelve fields in which The Oriental Missionary Society has established work.
