1227 LOYOLA AVENUE CHICAGO 26, ILLINOIS • TELEPHONES ROGERS PARK 4-1502, 4-1503

January 31, 1962

Mr. B.A. Karchevski  
188 Marlborough  
Boston 16, Mass.

Dear Mr. Karchevski:

This will acknowledge your letter of January 20th,  
relative to reception of Station XEG.

XEG operates on 100,000 watts of power on 1050 KC.  
The transmitter is at Monterrey, Mexico.

It is unusual to receive reception of XEG in the  
Boston area due to the fact that WMGM in New York  
City also operates on the 1050 KC channel.

Thank you for your letter - it is naturally of  
considerable interest to the station.

Yours sincerely,

*Harold S. Schwartz*
