WEEB

THE ABC RADIO NETWORK 

January 21, 1968

Mr. R. A. Karchevski
8R Riverside St., Apt G-1
Watertown, Mass. 02172

Dear Mr. Karchevski,

This letter will serve to verify your report of WEEB's test transmission on 1/15/68 between 1:08 and 1:27 AM, EST, on 990 kc/s.

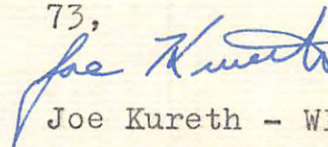

Most of the reports sent from the NE reported strong QRM from WIBG, while to the west, CBW was the biggest problem.

I'm happy to know that you took the time to log and write to the station; your letter was very much appreciated.

I'll have a report of the TEST in a later edition of DX News when all of the reports are recieved.

Good DX in '68 and I hope you're able tohear WEEB in the future.

73,

Joe Kureth - WPE4IBL
