13 March 1963

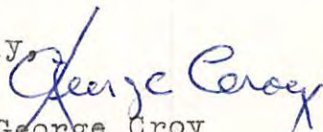

R.A.Kaschevski  
119 Hemenway St.  
Boston 15, Mass.

Dear Sir: Thank you for the very fine reception report of March 2 from Boston, Mass. Your information checks with the program so I have no reason to doubt, but how did it ever get up there with WARE on 1250 kc . Sundown, sky-wave bounce must be the answer. Would be much happier if the darn thing would stay where it belongs, and others would do the same.

Also wish others who send in reports would do as neat and intelegent a job as yours.

To add to your list of Jersey stations, try picking up WCRV in Washington N.J. on 1580 on the fourth Thursday night -Friday morning period at about 12:15-12:30 E.S.T. . They have their quarterly frequency check with Cambridge Crystals at that time. Incidentally, WMTR checks the following night.

Very truly,

  
George Croy
