Dear Mr Karchevski,

Here is your verification of your receiving
WEZN Radio on December 24, 1961 at times between
5:25 and 5:50 AM.

We are a daytime station operating on 1600 KC
and are directional with our weak loop toward Columbia
Pa. Our main lobe is toward Hershey, Pa.

During the time you heard us, our two tower
directional antenna was surrounded by 6" of fresh
snow which probably gave our little 500 watt signal
somewhat of a boost.

Thank you for your interest and if you are ever
in Elizabethtown, please drop by.

Yours truly,

Mike Rice
